Burkburnett Oil Wells Nos. 4, 5, 6, 7, 8

All Townsite Locations

Will Build Fortune for All Who Join in My Trustee Plan Right Now!

I want to make a record for paying the quickest dividends ever paid. I want two or three hundred people scattered everywhere to share with me in this dividend million.

Great as the Burkburnett field and rich as have been the strike made, I feel confident I can beat the record, both in the amount of dividend and in the time it takes to return the profit.

I am operating in the oil business just as you would do in your business with your own money. If you met me face to face, man to man, and I pounded you on the shoulder, I could not with any more emphasis tell you to do your duty and do it now. I am calling to you now to stop and think what it means to have a man literally force you to join in a regal feast of profits. Big, quick dividends and permanent profit sharing on money actually invested on well actually flowing before your money leaves you.

You may have turned down many good things before, but I am here and now putting it squarely up to you to actually put your money into actual oil developments where actual returns really come to you and in record time.

Here is the thing no man ever did before and there is no man that would do it except me and I doubt if I ever do it again, for the simple reason that those who join with me now and those who are already interested with me will be able to furnish me all the money I shall ever need again on much better terms than I am willing to pay you today.

The man or woman of the modest means to whom the doubling and trebling of a few hundred dollars means much in life. Besides getting this money back with 100 per cent and then being permanently interested and identified with the man who is willing to do business with you on the square, that fails to grasp this hand of opportunity that stretches out to you now, may as well let the door of opportunity slam shut.

This is the record making event. This is the one chance in a lifetime, and I believe I am the one man among all of the great number of operators who has ever had the nerve to plainly promise every man a full profit-sharing interest in all his money will earn.

Resolve now to make 1919 the record breaker of your life and share in the multiplied millions that are belching from mother earth at Burkburnett.

I got into the game at Burkburnett when only the original Fowler well was there. I know the inside and every angle of the game. I am inspired to make a record here amid the blasts of hundreds of flashing boilers and the rumbling rigs, where a hundred wells spout and flow. That which I tell you comes from the heart as I see it. I deal with you as man to man, and I stand back of every promise I make.

Abner Davis Well No. 4 and the other Abner Davis locations, No. 5, 6, 7 and 8, are all in the inside of the heart of the proven pool shown in this picture of Burkburnett. Every location an offset to big wells.

One hundred dollars placed in my hands will be doubled and trebled for you with lightning rapidity. A thousand dollars with me in the next week or two will mean the laying of a solid foundation for independence and fortune.

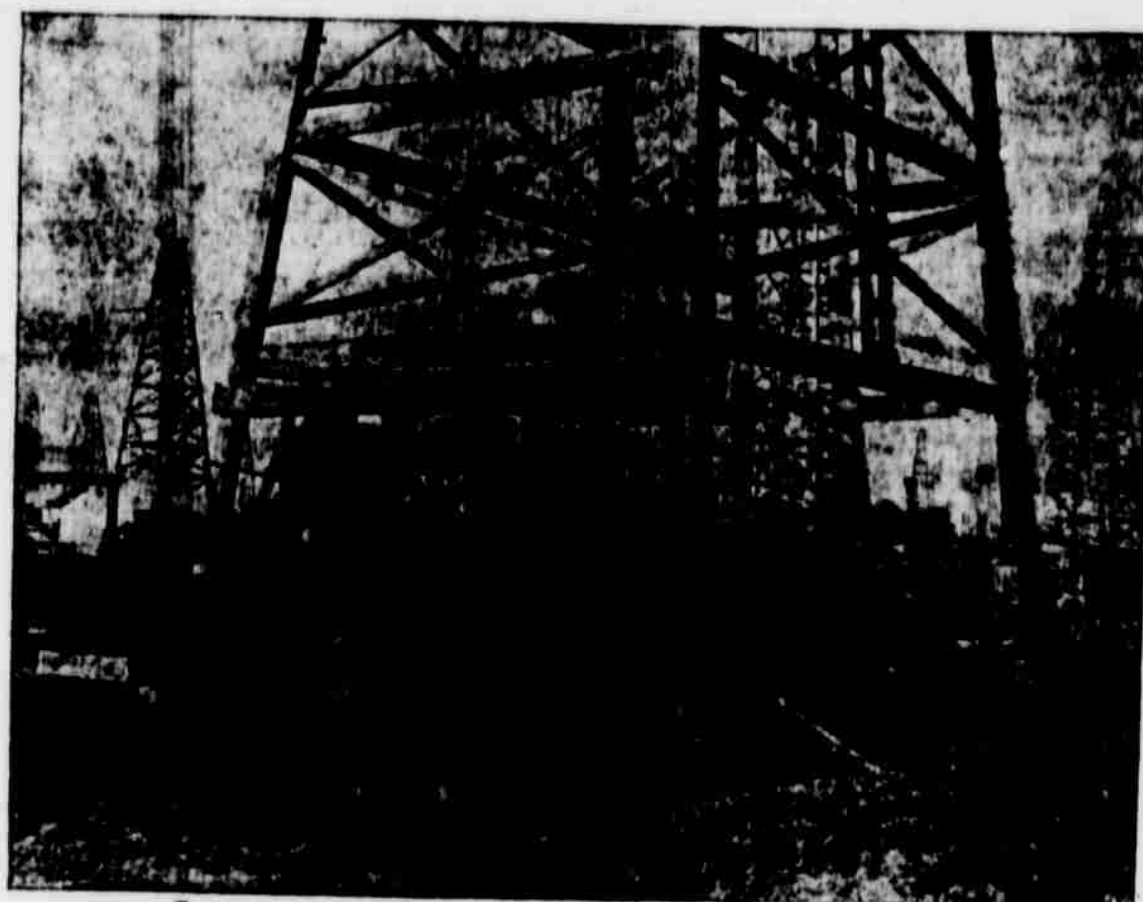

The properties I have under option and can buy now will advance in value thousands of dollars daily. The money sent me during the past ten days has been used to acquire property I could sell today at three, four and five hundred per cent advance. Your money will enable me to do more for you and it will mean more to me next week than ten times the amount ever meant before.

The response to my Trustee Plan of oil development as announced in the Texas newspaper has been so wonderfully satisfactory that the complete success of my plan is absolutely assured.

Thousands of dollars have poured in from everywhere and I have secured sites for Abner Davis Wells Nos 5 and 6 under drilling contracts on the choice locations in the very heart of the sure proven gusher section of the Burkburnett townsite.

The Abner Davis Well No. 5 and the Abner Davis Well No. 6 are now assured and drilling will begin at once. These two wells are located equally as good as the Abner Davis Well No. 4 now nearing completion. If the response to this advertisement is anything like as liberal as I anticipate the funds will be in my hands this week to secure two sure gusher drilling sites which I now have options on.

This will mean that Abner Davis Well No. 7 and Abner Davis No. 8 will be gotten under way during the next 30 days and with the speed that may now be expected I am counting on five gusher wells for the Abner Davis Trustee Plan.

This photograph shows a close-up view of the Abner Davis Well No. 4, now in the sand and expected in as a record gusher any moment.

When you read my advertisement, you are talking to the man who speaks to the thousands as man to man. I tell you in my own way what I will do. No company promises. No corporation mismanagement. I never allow any one to write an ad for me because what I say, I live and do. My story is simple and my plan plain, and I know but one "tell the truth even if it hurts." For I say: There is no man smart enough to tell a lie good enough to stand up long enough on which to drill an oil well, or build permanent success.

Remember this: Your money is being used now for acquiring the cream of the Burkburnett pool. Your money will be used to drill these wells and earn and pay dividends. I am making a record and this record will be hard to beat. The man who tries later to do what I am doing will need much more money than I needed to acquire these drilling sites and take advantage of these drilling contracts. Your money is doubling before it is all paid in because I am using it to acquire by lease or under option, sure producing drilling contracts that can be disposed of at two to three times their cost, even if I should want to dispose of same for the profit.

So we are making money on our knowledge and by having your sure help to carry out my plans and meet my obligations as they fall due.

Get your money in my hands to cinch Wells 7 and 8. The money is already pledged to pay for 5 and 6. No. 4 will be drilled to the sand by the time you read this ad and should be gushing oil into the tanks before you can get the coupon below in my hands. If you will act now you will share in this well No. 4 even if it is flowing before your money reaches me, and you will share in Nos. 5, 6, 7, 8 and all others whether 10 or 20 of them that may be drilled under my great, clean, profit-sharing "man to man" Trustee Plan.
